Multidisciplinary Digital Media Artist bridging compelling visual storytelling with advanced technical execution. Adept at crafting immersive interactive experiences using Unity, Unreal Engine, and Houdini, complemented by a robust foundation in graphic and brand design. Passionate about leveraging a versatile skill set - from 3D simulation to interactive media - to solve complex creative challenges in a dynamic studio environment.

EDUCATION

EXPECTED IN MAY 2026
BACHELOR OF DESIGN, DIGITAL FUTURES
OCAD UNIVERSITY | TORONTO

Relevant Coursework

- Interactive Media
- Creative Coding
- 3D Environments.

MAY 2023
ADVANCED DIPLOMA, GRAPHIC AND
DIGITAL DESIGN
GEORGE BROWN COLLEGE | TORONTO

Focus

- Visual Storytelling
- Branding & Identity
- Cross-Platform Digital Design

SKILLS

REAL-TIME & 3D

- Unity
- Unreal Engine
- Houdini

DESIGN & VISUALS

- Adobe Creative Suite
- Branding & Identity
- Typography
- Visual Storytelling

DEVELOPMENT & TECH

- AI Scripting
- Physical Simulation
- Interactive Media

PROCESS

- Rapid Prototyping
- Cross-functional Collaboration

PROJECTS (Selected)

Interactive AI Vision Simulation | OCAD, ON, CA. Jan - Feb 2026

- Conceptualized and developed a web-based simulation exploring the intersection of AI, nonhuman intelligence, and human perception.
- Integrated complex visual concepts into an interactive format, bridging theoretical philosophy with concrete technical execution to question traditional definitions of objectivity.

3D Game Development, Unity & C# | OCAD, ON, CA. Jan - Apr 2026

- Engineered custom C# character controller scripts and interactive game mechanics within Unity for a 3D environment.
- Designed fluid movement systems and physics interactions, demonstrating strong logical problem-solving skills and a deep understanding of game engine architecture.

Procedural Animation & Simulation, Houdini | OCAD, ON, CA. Jan - Apr 2026

- Authored procedural 3D physical simulations and dynamic particle systems to explore themes of simulation and objectivity.
- Experimented with integrating unconventional visual inputs into 3D environments, demonstrating strong technical problem-solving and avant-garde aesthetic vision.

EXPERIENCE

Graphic Designer | HeyDay Industrial & Trading Co., Ltd.
Qingdao, CHN, May 2024 - Aug 2024

- Translated client requirements into actionable design concepts, facilitating iterative review cycles to ensure visual alignment with strategic project objectives.
- Rapidly prototyped visual assets and layouts using Adobe Creative Suite, streamlining the design-to-production workflow for marketing materials.
- Delivered comprehensive branding and packaging solutions across multiple product lines, directly contributing to enhanced market positioning and increased sales revenue.
- Partnered with cross-functional teams to develop cohesive visual identities, ensuring brand consistency across all consumer-facing touchpoints.
